## The Giraffe

The giraffe heart is probably the most powerful in the animal kingdom (weighing in at about 25lbs), because about double normal pressure is required to pump blood up that long neck to the brain. But the brain is a very delicate structure which cannot stand high blood pressure. **What happens when the giraffe bends down to take a drink?** Does he 'blow his mind'? Fortunately, a couple of design features have been included in the giraffe to control this and related problems.

1. The giraffe has in his jugular veins a series of **one-way check valves** which immediately close as the head is lowered, thus preventing blood from flowing back down into the brain.

**But what of the blood flow through the carotid artery from the heart to the brain?**

2. Another design feature is the '**wonder net**', a spongy tissue filled with numerous small blood vessels located near the base of the brain. The arterial blood first flows through this net of vessels before it reaches the brain. It is believed that when the animal stoops to drink, the wonder net in some way controls the blood flow so that the full pressure is not exerted on the brain.

Evil, pain, suffering, and death  
exist in the world.

A golden sunset or sunrise over a landscape with mountains and a body of water. The sky is filled with soft, glowing clouds, and the sun is low on the horizon, casting a warm, golden light across the scene. The water in the foreground is calm, reflecting the light from the sky. The mountains in the background are silhouetted against the bright sky.

**What is the greatest good that man can do?**

A golden sunset sky with clouds and a sunburst effect. The sun is low on the horizon, creating a bright glow and casting rays of light across the sky. The clouds are illuminated from below, giving them a warm, golden hue. The overall scene is peaceful and majestic.

**What is the greatest good that man can do?**

**Glorify God.**

**What is the greatest good that God can do?**

The background of the slide is a photograph of a sunset or sunrise. The sky is filled with soft, wispy clouds that are illuminated from below, creating a warm, golden glow. The light is most intense near the horizon, where it meets a dark, silhouetted landscape of mountains and a body of water. The overall color palette is dominated by shades of orange, yellow, and gold, with a gradient from bright white/yellow at the bottom to a darker orange at the top.
